

NAJIYA NASRIN P K

Python Full Stack Developer

✉ jiyaaapk@gmail.com ☎ 8089502643 📍 Palakkad 🌐 LinkedIn 🏠 GitHub

PROFILE SUMMARY

Python Django Full Stack Developer with hands-on experience building responsive, database-driven web applications using Python, Django, Angular and SQL. Proficient in Django REST Framework, REST API development, authentication, CRUD operations and database management. Strong problem-solving and debugging skills with experience developing scalable and maintainable web applications.

PROFESSIONAL EXPERIENCE

AppletLogic, Python Full Stack Intern 06/2026 – 07/2026 | Kozhikode

- Developed full-stack web applications using Python, Django, Angular, HTML, CSS, and JavaScript.
- Built and integrated RESTful APIs using Django REST Framework with Angular frontend applications.
- Implemented database models, authentication, CRUD operations to support scalable application functionality.
- Performed debugging, testing and issue resolution across frontend and backend systems.

Febno Technologies, Python Full Stack Intern 02/2026 – 03/2026 | Kozhikode

- Developed responsive web applications using Python, Django, Angular, HTML, CSS and JavaScript.
- Built RESTful APIs using Django REST Framework and integrated them with Angular frontend applications.
- Designed and managed relational databases using SQL, including data modeling and query optimization.
- Implemented authentication, authorization and complete CRUD operations.

PROJECTS

SurgiTrace — Surgical Video Analysis Platform

- Developed a full-stack AI-powered surgical video analysis platform for automated medical summary generation.
- Integrated YOLO, Cloudinary and Gemma for object detection, cloud storage and AI-powered video analysis.
- Developed RESTful APIs for video upload, processing and result retrieval with asynchronous background processing.
- Implemented role-based access control (RBAC), audit logging and modular architecture for secure and scalable system development.

Cipher Core

- Developed a secure cloud storage and access control platform using Python and Flutter.
- Implemented data encryption, cryptography and secure communication to protect sensitive information.
- Engineered Attribute-Based Encryption (ABE) for fine-grained and scalable access control.
- Implemented role-based access, authentication, integrity verification and secure file sharing for Admin, Manager and Staff users.

EDUCATION

Python Django Angular Full Stack Development 06/2025 – 03/2026
Techno Dot Academy of R&D&I

Bachelor of Computer Applications 2022 – 2025
University of Calicut

Higher Secondary Education 2020 – 2022
PTMHSS Thrikkattiri, Palakkad

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS

Frameworks and Libraries: Django, Django REST Framework (DRF), Angular, Bootstrap

Databases and Query Language: PostgreSQL, MySQL, SQL

Tools and IDEs: Visual Studio Code (VS Code), Postman

Version Control & Collaboration: Git, GitHub, GitLab
