

NAJIYA NASRIN P K

Python Full Stack Developer

✉ jiyaaapk@gmail.com ☎ 8089502643 📍 Palakkad 🌐 linkedin 🏠 GitHub

PROFILE SUMMARY

Motivated Python Django Full Stack Developer with hands-on experience building responsive, database-driven web applications using Angular. Proficient in Python, Django, Angular, SQL, REST API development, authentication systems and CRUD operations. Strong problem-solving and debugging skills with experience delivering scalable solutions through real-world projects.

PROFESSIONAL EXPERIENCE

Febno Technologies, Python Django Angular Full-Stack Intern 01/2026 – 02/2026

- Developed responsive web applications using Python, Django, Angular, HTML, CSS and JavaScript.
- Built RESTful APIs using Django REST Framework and integrated them with Angular frontend applications.
- Designed and managed relational databases using SQL, including data modeling and query optimization.
- Implemented authentication, authorization and complete CRUD operations.
- Debugged and resolved backend, API and deployment issues to enhance application performance.

PROJECTS

SurgiTrace — Surgical Video Analysis Platform

- Developed a full-stack AI-powered platform for surgical video analysis, enabling automated generation of medical summaries.
- Integrated AI pipeline combining object detection (YOLO), cloud storage (Cloudinary) and language model (Gemma) for end-to-end analysis.
- Developed RESTful APIs for video upload, processing, and result retrieval.
- Implemented asynchronous background processing for scalable handling of long-running video analysis tasks.
- Built secure role-based access control (RBAC) and audit logging for secure access control and activity tracking.
- Designed a modular architecture for scalable integration and easy upgrade of AI components.

Cipher Core

- Developed Cipher Core, a secure cloud storage and access control platform using Python and Flutter.
- Implemented cryptography mechanisms to ensure secure data encryption, confidentiality and protected communication across system modules.
- Engineered decentralized access control using Attribute-Based Encryption (ABE) to enable fine-grained and scalable permission management.
- Designed secure backend workflows with anonymous authentication, SHA-based integrity verification and replay-attack-resistant token mechanisms.
- Architected a role-based system (Admin, Manager, Staff) with secure file-sharing capabilities and controlled access to sensitive resources.

EDUCATION

Skill Diploma in Python Django Angular Full Stack 06/2025 – 02/2026
Technodot Academy

Bachelor of Computer Applications 2022 – 2025
University of Calicut

Higher Secondary Education 2020 – 2022
PTMHSS Thrikkattiri, Palakkad

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, HTML, CSS

Frameworks and Libraries: Django, Django REST Framework (DRF), Angular, Bootstrap

Databases and Query Language: PostgreSQL, MySQL, SQL

Tools and IDEs: Visual Studio Code (VS Code), Postman

Version Control & Collaboration: Git, GitHub, GitLab
